\$1.00	\$20.00	\$40.00

Envelopes delivered must be free from lint, dust, dirt, slime spots, wrinkles, folds, or scuff marks. Ink used on printed envelopes must be laser compatible ink free from smearing or flaking. The State reserves the right to reject any envelopes that display these or related problems, any old stock or any paper not conforming to postal standards.

STATE OF UTAH CONTRACT NUMBER: PD 1201 Feb. 13, 2007 **pages 09**

Additional "handling charge" or "delivery charge" may not be charged on multiple deliveries from one order placed by the State meeting the contracted minimum order figure.

Contractor will provide a local representative who can provide State agencies with technical assistance when requested. The contractor must assist the ordering agency with suggestions for design and layout of printed envelopes in order to meet all postal standards (i.e. endorsements) and State of Utah standard envelope print requirements.

State Mail Manager must approve artwork for all new envelope orders prior to printing to ensure compliance with USPS.

After delivery of envelopes, because stock may not be used immediately, it is impossible to determine if all envelopes are free of defects or are printed correctly. Therefore, if at any time, it is learned that the contractor has printed envelopes incorrectly, either the balance of the stock remaining will be picked up by contractor and reprinted at no charge, or the contractor may go through the remaining stock and remove all defective envelopes and reprint or replace at no cost.

Delivered stock must have one envelope pasted on the outside of each carton.

The number of days required to deliver plain envelopes may not exceed 5 days. Delivery of printed envelopes may not exceed 10 days.
